EDITOR NOTE: As we rejoin Emil and his merry band of conscripted misfits in the midst of the Tulsa Government's long campaign to reunite the former southlands in keeping with President Starkie's vision of getting the band back together again or in this case, bringing back the old USA as a global economic power.

Anyway! This is where this week's story picks up and as a spoiler alert - it goes weird from there!

SHELTER FROM THE STORM

We stumbled upon a young girl who was patiently waiting in an underground shelter. Initially, we mistook it for an abandoned root cellar, but she corrected us and revealed that it was actually a fallout shelter that her father had dug out in their backyard before the fall.

After Monna reassured her that she was safe, the girl opened up and shared the fascinating story of how the shelter had once been a luxurious swimming pool, until

her father lost his job in 2021. After the world was thrown into chaos, the swimming pool was repurposed into a root cellar and eventually transformed into her very own fallout shelter. Her father had hoped she could wait out the madness until the world regained its sanity.

She vividly remembers the events of 2023, when everything spiraled out of control. The local news anchor's constant screaming about defeating the communists

or warning against the rogue consumers who refused to give up their possessions for happiness still echoes in her mind.

She even made a strange observation at the time, noting that the anchor's cries sounded like death singing in a choir as he still echoes in her mind.

of entire cities.

"I remained silent, patiently biding my time in the depths of my father's underground fallout shelter."

As we ordered forward to clear the surrounding neighboring areas, we wished the root cellar girl a swift journey, despite Monna's objections to her being left behind.

The corporal scoffed, confident that some kind-hearted soul would come to her aid.

However, Monna expressed her fear, reiterating that it was unjust to abandon her, just as her father had done.

The wise Sargent diffused the argument by reminding us that we couldn't take in every orphan we came across, as we were not a Children's Crusade.

After that, we marched forward in silence, praying for a peaceful night.

Weeks later, I found myself locked in a windowless room,

It had been a long day, and I couldn't find any words that rhyme with any of this.

I long to share with you a tale of divine revelation, a celestial being wielding a fiery sword, obstructing the path to Poplar Bluff. Perhaps even a momentous occurrence akin to a legendary

But hold on, my friend!

Now, let me inquire sincerely,
from where did Psycho Sally
acquire this abundance of spirits?

I can't help but feel a bit

It was during this chaotic ordeal that he managed to secure our release from the infamous Cleveland City Drunk Tank.

Perhaps it's hard to believe, but what was once a painfully slow folk ballad has been transformed into a modern masterpiece,

Jessie, who picked up the cymbals and saw the Detroit sticker on the underside, swears they were once chrome-plated bumpers for a 1974 Ford Pinto hatchback.

Could it be that they were repurposed by a bowlegged woman who once worked at the Ford Motor's Ghost Plant?

It's a wild theory, but who knows what secrets lie behind the music

Perhaps, we may never truly know the answer to that question, as the once vibrant city of Detroit has vanished, its inhabitants relocated to the mysterious FEMA "Labor Camps of the Willing" in upper Michigan.

These camps were established last summer, with the sole purpose of mining rare earth metals for undisclosed off-world buyers.

We were about to approach the old Parchment chicken farm, where rumors had it that Old Psyche Sally and a young gypsy girl were hiding from the prying eyes of the FEMA or DARPO Government boys.

These government boys had paid an unwelcome visit to Mister Blue's Lakeside Villa, bombarding

After what seemed like an eternity of this theatrical exchange, the government boys grew weary and decided to call it quits, leaving us to our own devices.

My instincts warned me that tonight's moon would have an

"Urban" vibe, and a single precise shot from an ancient AK-47 could swiftly end his life before I could intervene to protect him.

Now, for those of you who are new to the podcast world, let me enlighten you with a little-known term that your traditional education might have missed. An "Urban" Moon is what the old-timers referred to as a "Bomber" Moon during their daring World War II missions, where they fearlessly flew bomber planes over Germany.

Seeing that bombers were outlawed in the 2024 United Nations Treaty that called for the destruction of all of the old generation's "Technology of Destruction" and the younger generations have learned little of the old generation's ways or to the advanced society that they built and the fact that the moon still is here more or less the same; the term was changed especially after the urban uprisings tied to the Antifa Militia Uprisings.

On a luminous night, the moon shines so brilliantly that navigating

The other burger companies were relentless in their demand for congress to punish the Burger King, and the news media went all out in investigating who had bestowed the title of king upon him.

As if that wasn't enough, the situation was reaching a boiling point, the nearby nuclear plant was on the verge of a catastrophic meltdown, its core dangerously unstable ever since the Ahriman Coalition of the Willing Nations agreed with the WEF Lobby to evacuate the city in order to supply Ahriman's newly established rare earth metal mines (in what was once Northern Michigan) with economic labor and a non-union work force.

It was during this tense moment

that Mister Blue decided to treat Old Sally like a mere pawn in his political game. He saw her as a game changer, a tool to manipulate and control. But deep down, I couldn't shake the feeling that this would only lead to disaster.

My worries intensified as I imagined the consequences of Mister Blue's actions. What if he was shot while engaging in this shady transaction?

He planned to pay off Old Sally with every last Gold Dinar left behind in the abandoned city. It was a risky

So, as I stood at the old chick ranch, I couldn't help but feel the weight of the world on my shoulders. The stakes were high, and the future was uncertain. Only time would tell if we could navigate through this treacherous landscape unscathed.

Old Sally glanced at me, her eyes filled with a mix of curiosity and apprehension, as if anticipating a lengthy and intense conversation.

I could sense her readiness to delve into the depths of her experiences, where she had constantly evaded the clutches of highway bandits and deceitful government agents from DARPO, whom she referred to as two-faced lying pig-faced pony soldiers. Her encounters with them had nothing to do with affection; instead, they harbored an inexplicable obsession with her.

Without any transition, she abruptly revealed her grand scheme to return to her home on the other side of the Multiverse.
